👤 ABOUT ME

I am graduate from the joint Interactive Media Design program at Western University and Fanshawe College. Through this program I have had the opportunity to gain critical, theory-based knowledge about media, technology, advertising and marketing, as well as hands-on experience with coding, designing, editing and photography. I am an incredibly organized individual who loves working as part of a team as well as independently, and who never wants to stop learning and expanding my worldview.

🎯 OBJECTIVE

To obtain a fulltime position within an innovative digital communications agency, where I will have the opportunity to develop efficient and intuitive user interfaces for web applications, while continuing to learn and expand my knowledge of emerging web technologies.

📁 PERSONAL SKILLS
